

Silverbar

Use it in the living room ...

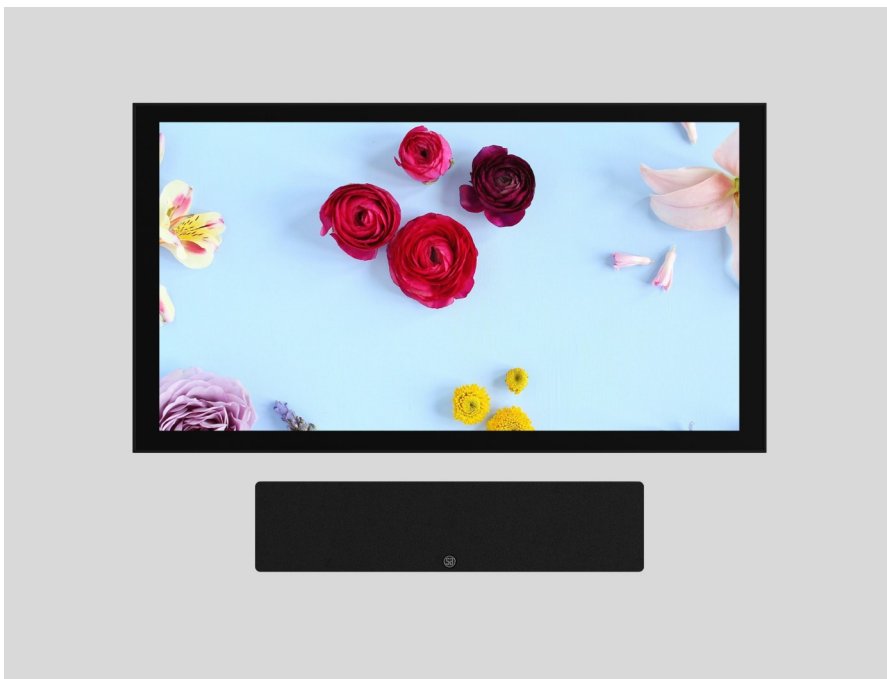

In the kitchen ...

In the home office

Put it on a shelf

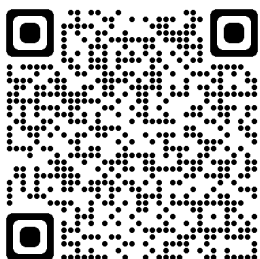

Hang it on the wall

Welcome

Thank you for choosing SA. At System Audio, we want to excite people with amazing audio experiences. To get the most out of your new speaker, I recommend that you carefully read this guide before connecting it. Follow the QR code to an updated manual including video. Feel free to contact us if you have any questions.

Why Silverbar is special

SA Silverbar is more than a soundbar. It's a music system, a multi room speaker ... and a soundbar.

It has four built-in amplifiers and custom-designed drive units. The sound is optimized to the acoustics of your room with SA Room Service, it doesn't need a subwoofer and it's created by music lovers. This is a unique speaker.

Ole Withthøft

Good to know about your new speaker

Warranty

System Audio A/S provides a 2-year warranty against production defects and a [7-year warranty](#) on drive units by registration at www.system-audio.com

The warranty does not cover abuse or electronic circuits. Repairs and service are performed by the dealer or affiliated service workshops. Any changes to the design will void the warranty.

Burning-in your new speaker

Your speaker need a 10 hour burn-in period and have to play music for a few days to get the sound right:

Note:

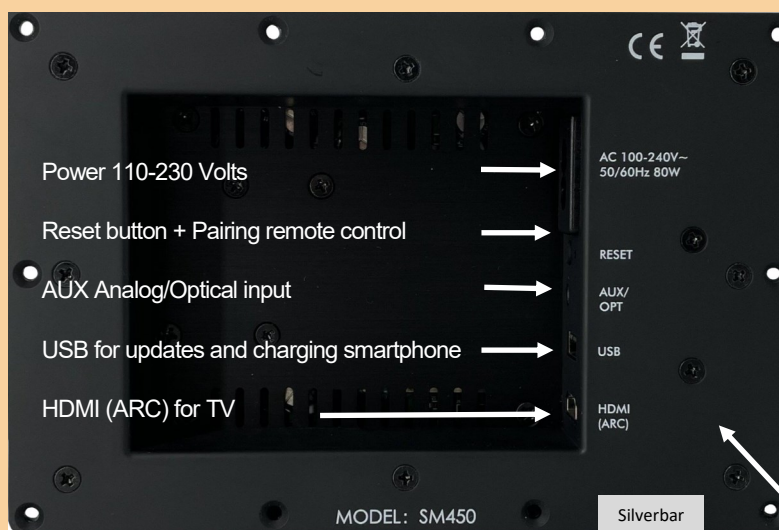

* Never turn up the volume to a level where the sound is distorted

Follow the QR code to a manual with video instructions

Connections

WiFi - Spotify Connect - Bluetooth - Chromecast - Airplay 2

Avoid overheating

Make sure to have good ventilation of air between the electronic unit and the wall behind the speaker.

How to set up SA Silverbar

Hang Silverbar on a wall or place it on a shelf on the metal stand.

Follow the instruction video and make sure to have good air ventilation between the electronics on the back of the speaker and the wall behind it.

Link to instruction video:

Connect to WiFi with Google Home

- * Connect power cable to SA Silverbar
- * After 30-40 seconds, the LED indicator on the back of the speaker will flash quickly
- * It means that SA Silverbar is ready to setup
- * Find Silverbar in your Google Home App and set it up according to instructions from Google.
- * Note, that Silverbar is called SM450 until you give it a name of your own choice.

Connect remote control to Silverbar

SA Silverbar is connected to WiFi when there is a constant light from the LED indicator on the back of the speaker.

Press the Reset button once and notice a flashing red light.

It means that Silverbar is in setup mode for the remote control.

Press any button on the remote control and it's connected to Silverbar.

Use [SA Room Service](#)

Adjust the sound to the acoustics your room with SA Room Service. It's a free app and the effect is amazing. Works with iPhone.

Enjoy!
